

FILLGOOD TOKEN LITEPAPER

1/ OUR VISION

Money rules the world. But should Sport be ruled by Money?

April 6, 1896. The revival of the Olympic Games. 127 years ago, the first edition of the modern Olympic Games began in Athens, Greece. 241 athletes from 14 nations took part.

Today what remains of the values of the Games?

Sport, which we take pleasure in sharing, does it still belong to the players?

In an ever-changing world, we all need financial stability. But is this enough for the fulfillment of each of us ? **Happiness can be achieved in many ways and we consider sports to be one of them.**

That's why **we're building a truly sustainable financial ecosystem powered by blockchain technology** - so you can directly benefit from some of the value generated by your regular physical activity.

At Fillgood, we believe in the incredible potential of blockchain to have a positive impact. But with great power comes great responsibility.

Unfortunately, many blockchain projects are pointless, purely speculative, and disregard long-term fairness and sustainability.

In response to this, we aim to **combine the positive values** of digital assets with the immense energy deployed by all players in the sports ecosystem to create a safe, reliable and innovative stimulation solution supported by real and solid assets.

The result is the Fillgood ecosystem: a sustainable hub of digital assets, sources of rewards and benefits reserved for those who believe that sport should above all remain a game.

We want to become **the digital investment bank of the tomorrow's sports ecosystem** and support projects that are faithful to the initial values of the sport that we defend: **the pleasure of playing and sharing it.**

To achieve this ambitious goal and take the crypto community with us on this adventure, we will distribute the **Fillgood Token**: the beating heart of the Fillgood ecosystem.

OUR VALUES

Gathering

We bring together all the people involved in the ecosystem for whom sport is still synonymous with play and sharing.

Empowerment

We empower an entire generation to have a positive influence on the strategic decisions made by the sports ecosystem. It's time to take back the power!

Fairness

We aim to onboard all stakeholders in a durable community based on trust

2/ FILLGOOD TOKEN BASICS

The heart of the Fillgood ecosystem

The Fillgood Token (FIGO) is your key to access our exclusive range of sports benefits and services. More than a source of income, it opens the doors to advantages reserved for privileged holders of the token.

It's a stepping stone to the entire Fillgood ecosystem and community : **an inclusive economy that benefits your wallet, your health, and brings you closer together.**

Why a token?

To cultivate a new economy

Fillgood's goal is to create a new financial ecosystem where stakeholders, through their participation, progressively have a positive impact on the governance of sport. Money is at the center of any economy because it unites communities around common goals.

To enable interoperability

The Fillgood Token is bigger than Fillgood: it is part of the whole blockchain ecosystem. Inasmuch as Token based on Ethereum, it can be used in many other Web3 applications and community members can freely build their own projects around sport using it.

To ensure sustainability

We ensure that every link in the financial chain adheres to our strict sustainability standards by limiting access to our benefits and services to owners of Fillgood tokens.

To reward positive impact

Owning Fillgood tokens is a mark of belonging to the Fillgood community, which comes with many benefits but also strong responsibilities. Fillgood will notably use its tokens to finance and reward the positive actions of its community in the sports ecosystem.

Who is it for?

The Fillgood token is for anyone who wants to invest in the blockchain space while having a net positive impact. It is suitable for both beginners and seasoned investors. It is for those who care as much about the common good as about their personal interest.

3/ FILLGOOD TOKEN UTILITY

The Fillgood Token (FIGO) is a decentralized utility token issued on Polygon. Use it freely to invest, use, pay or trade, in the web3 economy.

Within our ecosystem, it gives you access to the benefits and services of our partners and the exclusive content of our ambassadors.

Partners benefits and services

The partners, producers of sports content and experiences, are at the heart of the Fillgood ecosystem. Through their activities, they allow members of the community to adopt a more active way of life and fight against sedentarization.

Sport, which belongs to no one, is in all of us.

Each month, the partners will offer exclusive challenges, accessible in return for Fillgood tokens, in order to stimulate the physical activity of platform users and thus contribute to their well-being.

Ambassadors exclusive contents

Ambassadors, amateur or professional athletes, with values compatible with those of Fillgood, have a great responsibility in the ecosystem.

Through their actions, they promote a sport that is more accessible, more fun, more social and less performance-oriented.

Each month they will produce exclusive content and experiences for Fillgood token holders. Be ready!

Join the community

Fillgood Token owners are part of a new kind of private community of investors who care equally about their financial health as they do their physical, mental and social health. They are committed to giving a positive impact to their actions. Join like-minded people and get exclusive perks and rewards.

- Private community channels
- The Good Pass: Limited edition NFT subscription providing access to private channels, exclusive content and investment opportunities in SporTech industry, as well as privileged access to the management of Fillgood.
- Exclusive Web3 Benefits
- Fillgood debit card
- And more!

4/ FILLGOOD TOKEN COMMITMENTS

A dedicated token

The Fillgood Token is an ERC-20 issued on Polygon, one of the most efficient blockchains in the world. It will be used by Fillgood to finance specific sports content motivated by the social values of the project. **Through our actions we will encourage the community to get involved in the future of sport.**

Financial commitments

Beyond the global stimulation model created by Fillgood, the project management is also taking significant financial measures to support its partners and have, with them, **an immediate positive impact on the well-being of platform users**. This financial commitment is divided equally between contributions to bodies encouraging the practice of sport and the financing of innovative projects in the ecosystem.

50%

Of our profits donated to organizations encouraging physical activity

24.1 M

Fillgood Token to finance innovative projects for the development of a more accessible, more fun and more social sport

Fillgood Grant Program for Ambassadors

We reserve 1,4 M FIGOs each year to be used exclusively to fund community projects led by Fillgood ambassadors. This Grants Program is specifically designed to initiate, accelerate, support and scale sustainable projects with an immediate impact on community physical activity levels. During its minimum duration of 5 years, this Fillgood program will help stimulate an ecosystem dedicated to having a positive social impact. **The Fillgood community will play an active role in selecting grant recipients.**

5/ FILLGOOD TOKEN ECONOMICS

The total supply of Fillgood Token is permanently fixed at **241M FIGO** and will never increase. The Fillgood Token contract includes a burning capability, so the total supply may decrease in the future. As a testament to our long term commitment, most of the treasury and Fillgood funds will be initially locked.

The unlock schedule described in the table below will begin when the distribution of Fillgood tokens ends. The addresses of the portfolios holding the Treasury and the Sports Social Fund will be public.

241,000,000 TOTAL SUPPLY

50%	30%	20%
Distribution of Fillgood tokens	Ecosystem	Fillgood
50% Token supply To be distributed	120,5 M - Token distribution Unlocked at the end of the Fillgood Token private sale for partners and ambassadors. Private sale : 1,300,000 at \$0.10 No public sale.	
30% Ecosystem To benefit the ecosystem	48,2 M - Treasury 20% upfront - 80% locked at launch 1% of the remaining treasury is unlocked every month (logarithmic distribution) 24,1 M - Fillgood foundation Reserved for special operations like the Fillgood Grant Program. Locked at launch, with strict rules of use.	
20% Fillgood To execute our roadmap	24,1 M - Marketing 50% upfront 50% locked for 12 months 24,1 M - Contributors Locked for 24 months	

6/ FILLGOOD ROADMAP

LAUNCH PHASE

May 2023

Landing page & Discord launch

Creation and launch of the landing page, the Discord and other social networks to start communicating about the project and building the community.

June 2023

Testnet launch & Litepaper

Launch of the Dapp on testnet, our beta testers will test all the features as well as an audit firm. The litepaper will be released.

Sept. 2023

Whitepaper & Community growth

The Whitepaper will be released and we will focus on the growth of the community on this quarter.

Jan. 2024

Mainnet launch & Airdrops

Launch of the Dapp on mainnet and airdrop for beta testers and the community.

May 2024

Fillgood Grant Program

Initiating the first wave of our Grant Program dedicated to funding social sport projects

2025

Fillgood Mobile app & debit card

Access your Fillgood Tokens and all Fillgood benefits & services in Fillgood's non custodial wallet
All-in-one offramp to bring the Fillgood ecosystem to the physical world

UTILITY PHASE

7/ **FILLGOOD GOVERNANCE**

OUR TEAM

Our duo of deeply passionate innovators share the same vision of a sportier future for younger generations.

Our perfectly complementary association has been involved in the blockchain ecosystem since 2020 and consists of an entrepreneur and an experienced developer/engineer.

William Mesclier

CEO & Co-founder

Goulven Friess

CTO & Co-founder
